BUSINESS EXPERIENCE

- 2021 KPMG, Düsseldorf, Germany**
Focus Team IT – Intern (5 months)
- Initiated the development of R-based algorithmic anomaly detection models for time-series client data to enhance automated fraud detection in year-end audits by ~ 60%
 - Accompanied a German blue chip client’s projects on large-scale ERP migration into a renewed SAP infrastructure aimed at reduced ownership costs and harmonised data sourcing
 - Performed analyses on client’s automated IT control systems and conceptualized mitigation strategies to minimize aftereffects of control failures
- 2020 – 2021 BOSCH, Abstatt, Germany, Automotive division**
Business Intelligence – Intern (6 months)
- Advanced the development of predictive neural network revenue modelling to increase accuracy in long-term, seasonal forecasting in Python
 - Structured the worldwide rollout of financial planning software IBM Planning Analytics to standardise reporting activities globally and free-up controlling personnel capacity
 - Led a transformation team of 4 aimed at facilitating a +€400m revenue consolidation process through integration into the IBM architecture decreasing time for executive decision-making
 - Delivered presentations on streamlined forecasting operations to global controlling; convinced responsible finance managers to receive Go-Aheads for implementation of proposal
 - Analysed and managed integration of a Business Intelligence tool on global HR KPIs to provide management with integrated headcount overview and steering opportunities
- 2019 KPMG, Leipzig, Germany**
Audit – Intern (3 months)
- Audited MNCs in IFRS and local standards; provided assistance in KPMG’s value proposition and audit approach during pitching for client acquisition
 - Researched client’s financial statements and operations to assess and measure account risks
- 2018 SAP, Dubai, United Arab Emirates**
Corporate Finance – Intern (1 month)
- Assisted financial budgeting and revenue recognition for corporate finance overseeing 9 Middle Eastern/North African regions, and collaborated on commercialisation of client agreements
 - Quantified domestic value creation of SAP’s operations in the UAE to calculate an “Emiratisation Score” influencing the terms of trade with Abu Dhabi National Oil Company
